

The Pinto Horse & Pony Association Inc. (Qld)

STANDARD OF EXCELLENCE

The Pinto is a well conformed Light Horse of “Riding Type”.

~ Stallions should be well developed and exhibit desirable attributes to pass to their progeny.

~ Mares should be more refined, but show the correct characteristics suitable to the Light Horse.

HEAD – Should not be coarse; proportionate with the body. Eyes should be well set to the sides of the head, teeth to meet evenly – no conformation defect to be exhibited.

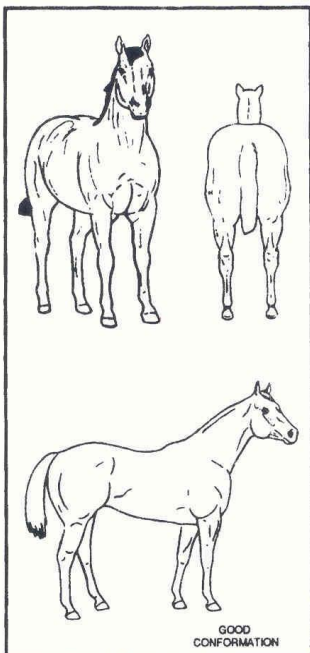

NECK – Should be well set, and in proportion to the body/ and even top line should be evidenced.

BODY – Should have a well rounded rump, with a natural curve in the back, the loins should be proportionate also. The entire body should present as a picture of balance appropriate to the horse.

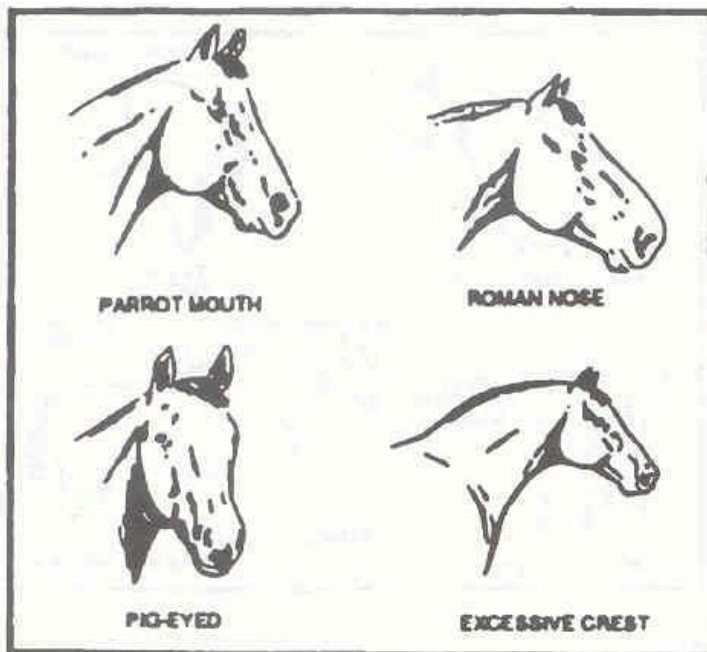

LEGS – Should be set squarely and display correct conformation.

ACTION – Should exhibit a smooth, straight following action. Should track up in all paces and should never trot wide from behind.

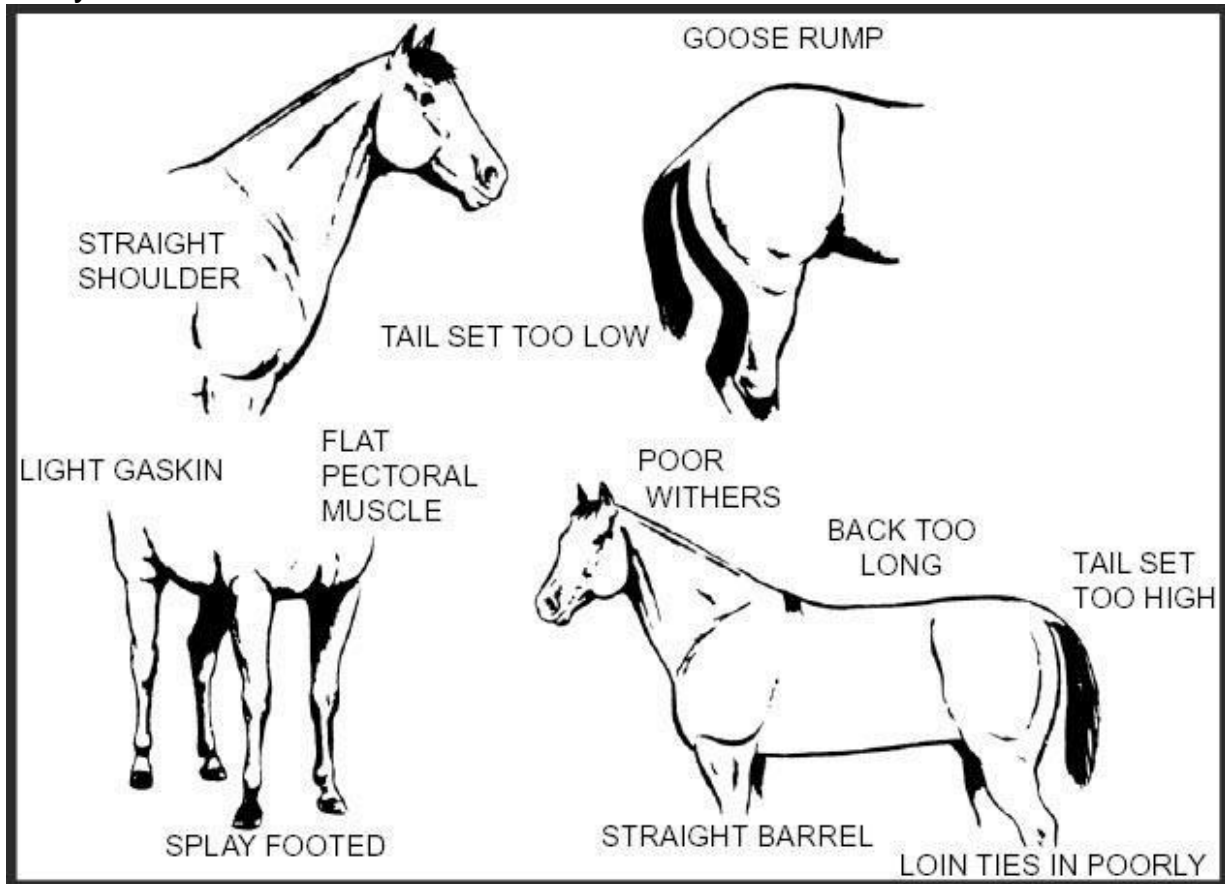

Good Conformation

Neck and Head Faults

Body faults

Limb faults
